

Discovery in *B.L. v. Mahanoy Area School District*

You represent B.L. in her First Amendment lawsuit against the School District. You will recall that B.L. was dismissed from the cheerleading team because she posted a Snapchat swearing about “school” and “cheer” while she was at a local convenience store with a friend on a Saturday. The Snap could only be seen by B.L.’s friends, and it automatically deleted after 24 hours. The next week, the cheerleading coach dismissed B.L. from the team for violating team rules and being “disrespectful” to the team, coaches, and school with the Snap. The school’s Answer asserted that the Snap caused “disruption”; under the First Amendment, schools can regulate students’ speech if it disrupts school activities.

The case is now at the Discovery phase. Please draft 5–10 discovery requests to take discovery from the school district. That could include: interrogatories; document requests; requests for admission; and identifying people you want to depose, and what to ask them.
